To whom it may concern,

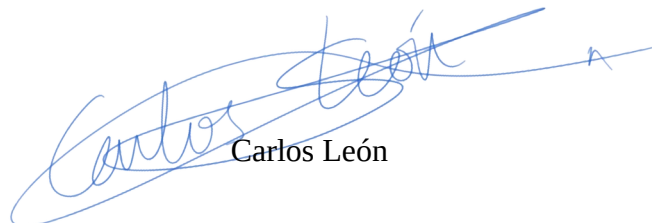

It is a pleasure for me to write a letter of recommendation for Mr Enrique Val Asensio. He has been a student of mine at Universidad Complutense de Madrid.

Enrique has recently completed his MSc on Videogame Development, in which I have contributed as advisor. As part of the academic programme, his team and he have successfully completed the videogame Aard and Wyzz. Enrique has contributed in an astonishing large part of the development, and has proven to be a strong leader. During the development, he has shown outstanding technical skills, always delivering working and polished features.

Enrique strikes me as a very reliable person, capable and an excellent team member. Working with him has been a pleasure, for both his excellence as a programmer and his soft skills.

Should you require any further information, do not hesitate to contact me.

Yours faithfully,

Carlos León
